

The V BioEconomic® Conference LEED® Certification has a date

We already have the date and place where the 5th edition of the **BioEconomic®** LEED® Certification Day will be held; the certification will be focused to Hotels and Buildings. It will be held in the Hotel MiM Sitges Boutique & Spa on February 23th, 2018, with the prediction of doubling the numbers of assistants.

Hotel MiM Sitges

Given the rising interest of Companies and assistants towards the **LEED® Certification**, Energy Efficiency, the Design and Construction of Sustainable Hotels and Buildings the organisation has decided to held the event in a space reference at an international level as is the **Hotel MiM Sitges, 1st Hotel in Europe to be rewarded with the LEED Platinum Certification**, which can host the increment predicted for this 2018.

Besides **doubling the number of assistants**, our strategic goal is to position the **LEED® Certification** as a reference for the whole Hospitality sector in Spain. To accomplish that we have the collaboration of the **REIH Plan**, we will promote the assistance with inverse purchaser's missions and other promotion actions.

BioEconomic will still bet on offering a highly professional environment oriented towards the detection of Hospitality projects based on two premises. The selection of the participating companies specialised in specific material supply homologated for the **LEED® Certification** and the selection of the professional assistants in the filed of Hospitality and prescription (Architects, Engineers, promoters, constructors and Hotel chains) as well as other potential channel buyers.

Furthermore we will promote again the Networking with specialised Speeches, meetings agendas and the Show Room prepared for the occasion with products both for the interior and exterior of Hotels and Buildings.

Success of the last edition

The numbers of the last edition, the **IV BioEconomic® Conference LEED® Certification**, show the success as a reference event in the design and Sustainable Construction with **LEED® Certification** in Hotels and Buildings with roughly **100 registered professionals**.

Sky Bar - Hotel MiM Sitges

From this point of view, the assistants (conformed by almost 40% of owners, directors or hotel purchase responsible and 40% of Architects and engineers) gave a mark to the **IV BioEconomic® Conference LEED® Certification** of **remarkable**, almost 70% admit to have made interesting contacts and more than 70% manifested the intention to ask for budgets to one or more exhibitors. They valued specially that it is an event almost exclusive for the **Hospitality Sector** and its **specialisation in Energy Efficiency, Design and Sustainable Construction**, as well as its quality.

Also the more than 10 companies participating also gave a mark to the **IV BioEconomic® Conference LEED® Certification** of **remarkable** and valued very high the highly specialised profile of the visitors.

Roger Platt, president of the U.S. Green Building Council and Sebastià Parera, BioEconomic
